

# Card Flip - Flash Cards

650 x 365 Desktop iFrame /  
Landscape layout

## Developer Notes:

This is the onLaunch view.

The cards will be stacked in rows of 2.

Scrolling reveals additional rows for flipping.

Selecting a card results in a “flipping effect,” and the darker side of the card is revealed.

Cards can be flipped as many times as the user needs.

Both card sides can contain images and text on either side depending on writer’s needs.

Font on the dark side has a slightly heavier weight for better legibility.

## Claims and Counterclaims

Vaccines against COVID-19 should be mandated.

No one has the right to mandate what goes into an individual’s body.

Content on YouTube should be well regulated.

Freedom of speech means that regulations on social media platforms should not be tightened.

Alt text rules: Be sure the ALT text reads the type of item on the page before reading the content on that item.

Example 1: “Card 1, side 1: [pause]  
“Vaccines against COVID-19 should be mandated.”

Example 2: “Card 1, side 2: [pause]  
“Yes, this is a reasonable counterclaim.”

## Card Flip - Flash Cards

650 x 365 Desktop iFrame /  
Landscape layout

### Developer Notes:

This view displays the screen instruction content shown if the “help” icon (circled question mark). Clicking the “X” closes the screen instructions.

The cards will be stacked in rows of 2.

Scrolling reveals additional rows for flipping.

Selecting a card results in a “flipping effect,” and the darker side of the card is revealed.

Cards can be flipped as many times as the user needs.

## Claims and Counterclaims

Vaccines against COVID-19 should be mandated.

No one has the right to mandate what goes into an individual’s body.

First, read the claim and the potential counterclaim. Decide if the counterclaim is reasonable. Then, select each card to check your evaluation. Replay this interaction as many times as you need. There is no time limit. This activity is not graded.

should be well regulated.
